

PROFILE SUMMARY

Senior Data Analyst with over four years’ experience delivering decision-ready reporting and analytics for senior stakeholders. Strong expertise in Power BI, SQL and automated reporting pipelines, with a proven ability to translate complex data into clear insights for non-technical audiences. Experienced in owning end-to-end reporting solutions, improving data quality and supporting evidence-based decision-making. Currently pursuing an MSc in Data Science & Analytics at the University of Leeds.

- KEY SKILLS**
- **Power BI** (data modelling, DAX, stakeholder dashboards)
 - **SQL** (complex querying, optimisation, data transformation)
 - **Python** (automation, data processing)
 - Data architecture & reporting pipelines
 - Stakeholder engagement & requirements gathering
 - Performance reporting & decision support
 - Training, documentation & continuous improvement

PROFESSIONAL EXPERIENCE		
Hexaview Technologies Pvt Ltd	Senior Data Analyst	Sept,2024 – Sept,2025
● Led the delivery of enterprise-level analytics and reporting solutions supporting operational and strategic decision-making across multiple service areas. ● Designed, maintained and governed Power BI dashboards used by over 50 senior and operational stakeholders to monitor performance and prioritise actions. ● Built and optimised SQL-based data models and DBT pipelines, improving data reliability and reducing reporting turnaround times. ● Automated recurring reports and data refresh processes, reducing manual effort and improving consistency of information provided to stakeholders. ● Acted as the primary analytics contact for stakeholders, translating service requirements into clear technical solutions. ● Supported continuous improvement by reviewing existing reporting processes and implementing more efficient, standardised approaches.		
Hexaview Technologies Pvt Ltd	Data Analyst	Jan,2022 – Sept,2024
● Developed SQL queries to extract, clean and analyse large, complex datasets to support operational reporting and service improvement. ● Produced clear and accessible data visualisations to communicate insights to non-technical stakeholders. ● Collaborated with cross-functional teams to identify trends and performance issues, supporting evidence-based decision-making. ● Contributed to the introduction of standard reporting frameworks, improving consistency and usability of management information. ● Supported stakeholders in interpreting data outputs and understanding performance metrics.		

EDUCATION & Achievements

MSc Data Science & Analytics (ongoing) | University of Leeds (2026)

B.Tech - Information Technology | Dr A.P.J. Abdul Kalam Technical University (AKTU) (2022)

Achievements: Smart India Hackathon (College winner)

Startup Conclave 2021 (Winner)

Pitch Perfect 2020 (Winner)

- CERTIFICATIONS**
- **PL300 - Microsoft Certified: Power BI Developer** (2024)
 - **Google Data Analytics Professional Certificate** (2025)
 - **Python for Data Science** (Michigan University, 2024)
 - **Introduction to Machine Learning** (Deeplearning.ai, 2025)
